WatchMinder Vibrating "Pager"

The WatchMinder is a vibratory assistive device to help remind children to perform activities. Up to 16 daily alarms/reminders can be preset each day including "GO BATHRM". At the appointed time, the message is displayed and the device vibrates for 2.5 seconds. It is worn on the waistband because of its large size. (1.9in wide x 2.3in high x 0.6in deep) Messages blink on the screen for five minutes. The schedules automatically repeat daily. No paging service required.

VibraLITE 3 Vibrating Watch

The VibraLITE 3 vibrating watch is a great silent reminder. It features an auto restart countdown mode like the Timex watch, but can be set to vibrate or sound rather than only sound an alarm. Once the watch vibrates (for approximately 20 seconds), it automatically resets and counts down again. Each day, you restart the preset countdown mode (e.g., before school) for continuous interval reminders. Works great when a silent alert is desired at fixed intervals. Countdown mode can be set for up to 23 hour intervals. Water resistant to 90 feet. Standard sized watch face with easy to adjust Velcro band. Available in Navy Blue or Light Blue/White Colors with Velcro band. Also in Black/Gray with leather band.

#GVLW Light Blue/White Retail \$49.95 Our Price \$47.95
#GVL3 Black/Gray Leather Retail \$59.95 Our Price \$47.95

MeDose Six Alarm Vibrating Watch

The MeDose multi-alarm watch has a unique feature that permits you to set up to six independent alarm times per day. The function provides flexibility in setting reminders at times other than exact intervals (e.g., every two hours) to coincide with school schedules (e.g., 8:35am, 10:20am, 12:17pm, 2:23pm, 4:30pm and 6:30pm). "Hard to ignore" vibrating alarms go off every day without restarting. The youthful looking watch can be set for vibration or sound. The discreet vibrating alarm is perfect for quietly reminding children to void during the daytime. Red/Blue colors, standard sized watch face and easy to use Velcro band. Also available in Black/Silver with leather band.

Timex IronMAN Triathlon and Expedition

Inexpensive, easy to use midsize watches from Timex. Both feature an auto restart countdown mode that sound an alarm (no vibration) at a specified time interval (e.g. every two hours). Once the watch sounds, it automatically resets and counts down again. Each day, you restart the preset countdown mode (e.g., before school) for continuous interval reminders. Velcro strap.
